Education

Central University, Bilaspur — Bilaspur, India
B.Tech in Information Technology — CGPA: 8.3/10 — *2023 – Present*

Experience

Meru Technosoft — Jan 2026 – Oct 2026
Frontend Developer Intern — *Remote*

- Developed custom CRM user interfaces for **50+** organizations on the HelloGrowth CRM platform using **React.js** and **Tailwind CSS**.
- Redesigned and improved the UI of existing HelloGrowth CRM pages, enhancing usability, consistency and the overall user experience.
- Integrated **30+** APIs across different organizations into HelloGrowth CRM, handling data flow, loading and error states.
- Mentored and onboarded new interns, guiding them on team workflows, codebase structure and development best practices.

Projects

Legal Metrology Verification Platform | *React.js, Node.js, Express.js, TypeScript, PostgreSQL, JWT* Live

- Built a full-stack platform to digitise legal metrology workflows: instrument registration, verification applications, field inspection, and certificate issuance.
- Implemented **JWT**, **role-based dashboards** for officers, testing centres and businesses and QR-based public certificate verification

Video Sharing Platform | *React.js, Node.js, MongoDB, Cloudnary* Live

- Built a full-stack video sharing platform with user authentication, video upload, streaming, likes and comments.
- Tested with **5+ real users** across devices; their feedback helped identify and fix bugs.

Real-Time Chat App | *React.js, Node.js, Socket.IO, Redis(pub/sub), Redis Streams* Live

- Created a real-time chat application using **WebSockets (Socket.IO)** supporting one-to-one and group messaging with online status.
- Used by **5+ users** across devices for live testing, which helped surface and fix real-time bugs.

Technical Skills

Relevant Coursework:: OOPs, Operating Systems, Computer Networking, RDBMS, DSA, Artificial Intelligence
Programming Languages: JavaScript, Java
Algorithmic Thinking: Data Structures and Algorithms
Databases: MySQL, MongoDB
Tools & Frameworks: HTML, CSS, Tailwind CSS, React.js, Node.js, Postman, GitHub, vercel, Render

Achievements

Winner, Smart India Hackathon (SIH) 2025 — built a real-time monitoring system for Disaster Training Management Centralized Platform for NDMA and won at the national level among 500+ teams. Link

LeetCode: Solved 120+ problems. Link

Certifications

Postman API Fundamentals Student Expert — Postman Link Dec 2024

Generative AI — Oracle Link Oct 2025
